\*Hopper capacities are based on a coin/token the size of a 2014 USA quarter or a \$1 USA coin. The measurements of said coin/token are 0.955/1.043 inches or 1.75/26.5 millimeters and a weight of 0.182/0.260 Troy ounces (USA) or 5.670/8.100 grams respectively. Hopper capacities may be increased or reduced using different sizes of coins/tokens.

\*\* Dimensions and weights are reasonably close estimates measured prior to packaging for shipment by American Changer. They only consider the base product features – no other options.

Other options can be considered in addition to those listed. All options and/or customized features are an additional price over the base price of the product. **No** products and/or services supplied by American Changer are 100% security proof and all of American Changer’s products and services are to be used by the owner’s best judgement. Capacities are approximations.

**Installation, use and maintenance (service) must be done in accordance with the applicable manuals provided by American Changer with the products in this document and comply with any and all pertinent law or regulations. Specifications on this document can vary without notice.**
